🔘   Enable two-factor
     authentication

✉   Send password reset
     email

⌐→   Sign out

Enable Two-Factor Authentication   ✕

Two-factor authentication creates an additional layer of security to your Addepar account. Once enabled, you'll be required to enter a one-time security code generated by an authenticator application during sign in.

Cancel   **Next**

Set Up Two-Factor Authentication   ✕

Enter your password to begin the process of enabling two-factor authentication for your account.

Enter password

Cancel   **Next**

Set Up Two-Factor Authentication ✕

Scan this QR code with your authenticator application.

If you need to download an authenticator application, Addepar recommends Google Authenticator (available on iOS or Android).

Cancel   **Next**

Download Google Authenticator App on mobile device

Open app and click plus sign in lower right corner

Click "Scan a QR code" and camera will open

Addepar will be added immediately to your Google Authenticator app

Choose NEXT

Set Up Two-Factor Authentication ✕

Enter the six-digit code generated by your authenticator application.

```
_ _ _ _ _ _
```

Cancel   Next

On the next screen you will receive recovery codes. Please store these in a secure location and you will need them in case you are locked out of your account. Then click NEXT

Enter code from App here and click NEXT

Set Up Two-Factor Authentication ✕

If you lose access to your authenticated device, you can use the following recovery codes to sign in:

- 10069332
- 21948054
- 27190315
- 82440199
- 46476458

Save these codes in a secure location. You can only use each code once.

Cancel   Next

You should receive a prompt that Two-factor authentication has been enabled and you can click DONE.

Set Up Two-Factor Authentication

×

Two-factor authentication is now enabled for your account. You'll be required to enter an authentication code and your pasword the next time you sign in.

Cancel Done
